

SOUTH CAROLINA BREATH ALCOHOL TESTING MOBILE UNIT

The BATmobile is a 26 foot customized vehicle manufactured by American Emergency Vehicles in Jefferson, North Carolina. The vehicles and equipment were purchased with funds provided by the SC Department of Public Safety's Office of Highway Safety.

The BATmobile is equipped with a DataMaster Breath Testing Instrument, FAX machine, video recording devices, cellular phone, officer workstations, and other equipment necessary to process DUI suspects.

The BATmobile can be located on site for breath testing during single agency or multi-jurisdictional impaired driving saturation patrols or checkpoints to reduce time and travel for officers transporting a DUI suspect to a breath testing facility.

The BATmobile unit is available to all law enforcement agencies for use during enforcement or community events in their respective areas.

Either unit can be reserved by:
